MUDGUARD R 1100 S

311,60€

33900-001. Many people have wondered at the two-faced nature of the front mudguard: The front is made of light carbon, whereas the back has to make do with cheap plastic. The blue thread running through the material and the narrow structure are also not everyone's cup of tea. Our carbon mudguard is completely made of carbon fibre. Weight: 290 grams
