

ADJUSTABLE GEAR LEVER R1200GS/GSA LC

166,60€

R 1200 GS LC (2013 -)
R 1200 GS LC Adv. (2014-)

The facts:

Foldable.

Simple, precise gear changing by means of a roller-mounted rubber-coated gear shift lever tip.

One-time setting of the shift travel: either original shift travel or shorter/longer shift travel for sport/offroad use.

Made of strong CNC-machined 7075 T6 aluminium.

Stepless length adjustment.

With strong safety wire. Prevents tree branches etc. from getting caught and tangled between gear lever and motor housing.

Wear-free stainless steel folding mechanism. Extra-strongly bolted.

Reinforced serration.

Extremely lightweight construction.

Made in Germany.

The precision cut serration of the clamp ensure a tight fit on the shaft, even in cases where the shaft tip is slightly worn.
