

BLUE VISION BULB H7 12V/55W HEADLIGHT

23,50€

36750-000. The alternative to the expensive Xenon headlights: The bright white light of our BlueVision lamps improves reflection from street signs and markings. Tedious night riding turns into a pleasure, as your eyes don't tire as quickly and you are in a better position to react to the risks posed by road traffic. Changing the bulb is simple. Note: These bulbs are approved for road use in Germany, but may not be road legal in your country. Check the regulations before ordering!
