BMW PARKING ONLY METAL SIGN 30 X 40 CM - NOSTALGIC-ART

27,40€

25320-200. Retro decoration for BMW enthusiasts

Metal signs are beloved retro items that add style and personality to your own four walls. Many designs evoke memories of the "good old times" and sprinkle a touch of nostalgia around the kitchen, the living room or the garage.

Whether as a present for your loved one or for your home - enjoy an attractive and decorative metal sign in 30x40 cm format.

The sign is made in Germany and impresses on strong steel plate with the high-quality "Made in Germany" craftsmanship. The material stands for quality and durability, and stands out significantly greater than alternatives like posters or plastic products. Certain areas are emphasised to match the respective motif. This embossing makes the design appear particularly plastic. A light curvature of the sign provides additional stability.

Pre-drilled holes in all four corners make mounting the metal sign on the wall a piece of cake.

The facts:
This high-quality vintage metal sign is a great piece of decoration - whether it's for the kitchen, the living room or the garage.
The appealing retro motif is printed on the metal in brilliant colours.
Certain parts of the motif are embossed, making it appear especially plastic.
You can nail this metal sign to the wall with total ease via the pre-drilled holes.
This beautiful alternative to normal posters adds real retro flair to your home.
The sign is made in Germany and impresses on strong steel plate with "Made in Germany" quality.
