

BMW SERVICE PIGGY BANK – NOSTALGIC ART

11,90€

25320-300. Do you get this too? Where to put that annoying change?

There should be a place in every home to put loose change. This piggy bank is perfect for this. The recessed lid that's typical for piggy banks has a large slot that easily takes coins and notes. You can open it and close it again with minimal pressure. Unlike some piggy banks, this makes ours usable over the long-term and means they're not totally destroyed by a little cash injection now and again. It won't just be your wallet that thanks you. You'll also put a significant sum away in the process.

The facts:

Format: 10x13 cm

1 litre volume

Tightly closing lid with savings slot

Made of robust stainless steel

SKU: 25320-300
