

BMW SPEEDOMETER WALL CLOCK - NOSTALGIC ART

47,80€

25320-102. Our wall clock uses high-quality materials to combine design and quality. The much-loved motifs really come into their own thanks to the discreet frame. The wall clock is 31 cm in diameter and 5.5 cm deep. The classic metal frame and the curved glass front turn the clock into a real design piece. The frame is lacquered in black or silver depending on the motif. A battery-powered quartz mechanism ensures the time is displayed accurately.

The facts:

No matter whether it's as a kitchen clock, for the living room or even for the garage - this high-quality wall clock draws the eye.

The wall clock in a vintage design comes with a high-quality metal frame and curved glass front.

The diameter of 31 cm and depth of approx. 5 cm means it's pretty big and looks highly decorative.

The battery-powered quartz mechanism ensures the time is displayed accurately.

A high-quality print ensures the nostalgia motif comes into its own in the discreet frame.
