For front brake reservoir

Shining example of the machining art in a vulnerable location. This is both “eye candy” and an extremely sturdy alternative to the unsightly original plastic cover.

The facts:

Significantly sturdier and distortion-free. Adds quality to the reservoirs, turning them into eye-candy.

Made of solid CNC turned/machined aluminium.

Quick and easy to fit - just swap with the original.

Available with hard anodised layer or polished

SKU: 27060-002
