

CENTRE STAND PROTECTION PLATE – SILVER R 1200 GS (– 2007)

69,00€

R 1200 GS (– 2007)

The logical addition to the engine protection plate.

The engine protection is continued further to cover the centre stand. Centre stand, exhaust pipes (catalytic converter) and the swing arm base are thus safe from destruction. The bike can glide over the entire protective surface in case of a touch down.

Anodised aluminium.
