R 1250 GS Adventure	not for lowered vehicles

The logical complement to the engine protection system.

The **engine protection effect theme** continues with the **centre stand**. The **centre stand**, catalytic converter header pipe and swing arm mounting are all protected from serious damage. And, in addition, should it bottom out, the bike can glide along the ground on a fully protected undercarriage until the rear wheel finds purchase again.

### The facts:

- 4 mm (0.15") strong aluminium.
- Integrated swages bring high stability.
- Secure, easily fitted restraint systems.
- Maximum protection for main centre stand, header pipe and swing arm.
  - Made in Germany.

Will not fit with the original BMW engine sump guard "Enduro".
