

CONVERSION KIT TO ADDITIONAL LED-HEADLIGHTS

311,60€

28365-001. This kit enables a cost-effective "upgrade" of our halogen auxiliary headlights Microfloater to a ultra-modern LED technology by simply replacing the lamp unit and the bracket.

The facts:

The auxiliary lights MicroFloater are more luminous, need less energy and the lamp life is extended considerably. E-certified (no registration required).

Inexpensive "upgrade" for our halogen MicroFloater to highly modern LED technology

Simple exchange of the light unit and mount

Significantly increased brightness

Lower energy usage

Significantly increased bulb life

No registration required, with e-approval
