Axis-protection pads DoubleShock

Keep the top yoke at a safe distance from the tar and prevent sustainably from enormous damage.

The facts:

Effective protection of the top yoke.

Ideal combination of crash bar / -pads, because the bike is now also protected by the axis pads.

li>

Double protection against impact and sliding damage (thanks to the integrated damping layer).

Racing design for small friction resistance / shear forces at minor crashes or heavy lean angles

and a progressively increasing frictional resistance

with prolonged road contact.

High strength special plastic.

Safe and easy handling. li>

Fast and easy mounting.

Inclusive complete fitting kit.

Made in Germany.
