

ELEPHANT TANK BAG PHOTO INSERT

93,70€

20601-002. This practical and flexible photo insert turns out Elephant tank back - and almost all other tank bags - into a complete photo tank bag.

The sturdy cushioning protects the valuable photo equipment and is completely adjustable thanks to reliable Velcro fasteners. This means your camera, lenses and other accessories can be stowed away individually in a way that saves on space. Two variable lens supports ensure you get the right position. An all-around zipper means the cover opens generously so that your equipment is fully visible and easy to get hold of. Thanks to the helpful handle, the photo insert and all content can be removed from the tank bag with one hand. The photo insert comes with two sturdy eyelets so it can be used quickly and comfortable as a shoulder bag with our tank bag's shoulder strap. In short: It doesn't get more practical!

The facts:

- Photo insert with all-around protective cushioning
- Cushioning also in the base and the cover
- Totally adjustable, multi-part internal divider also with cushioning
- Suitable for our Elephant and almost all third-party products in a similar size
- Large, all-around zipper for visibility and quick access
- Sturdy design even without contents
- Anti-spray protection and water-repellent
- Incl. two lens supports for perfect positioning
- Large loop for quick removal from the tank bag

Two sturdy eyelets for attaching a shoulder strap (strap is part of the Elephant delivery scope)

Measurements: (L / W / H) 30 cm / 25 cm / 17 cm

Tip: Both our Elephant as well as the photo insert are protected against spray and water-repellent. For transporting your valuable photo equipment in the pouring rain, we recommend you use our universal tank bag rain cover or our waterproof luggage bag (item no.: 44000-000).
