

ENGINE COVER PROTECTION RIGHT, S1000RR/ S1000XR

83,30€

S 1000 R (2014 -) t
S 1000 RR (- 2011) t
S 1000 RR (2012 - 2014) t
S 1000 XR

Shock-absorbing and abrasion-proof crash protectors that protect the exposed engine covers.

The facts:

Form-locking additional protection for the engine covers.

Internal 3M bumper protectors evenly distribute forces to the covers.

Minimal effort is still required for assembly and disassembly of the engine covers.

Outstanding functionality, design and technical execution.

Lug for properly securing Wunderlich inspection plug.

Machined from solid aluminium (7075).

Hard anodised.

Lightweight bracket set, anodised GunMetal.

Crash protectors available in various colours. Screw kit included.

An advancement on the aluminium water pump protectors, as seen in the 'Power- Cup' . For complete protection, we also recommend one of our crash pads.
