459,00€

Wunderlich driver seat-standard

SOPH MALLEHIN:

R 1200 GS LC (2013 -)

R 1200 GS LC Adv. (2014-) n.20mm matalampi

R1250 GS

R1250 GS Adv. n.20mm matalampi

The facts:

Function

- A relaxed and active riding experience adds a definite plus to passive safety
- Ergonomic 3D contour to support the natural posture of the back and comfortable leg position while riding and standing
- Progressive two-layer construction with soft top layer and rigid core guarantees comfort because the seat doesn't buckle
- The sitting pressure is equally distributed over a larger area, resulting in noticeably optimised weight distribution and lower specific pressure load
 - Distinct concave profile to relax the coccyx
- More comfort with **ThermoPro**: With the **ThermoPro** coating, the temperature of this seat in direct sun at the peak of summer is up to 25°C lower compared to standard, untreated cover materials
 - Refined, dropped "Cut" seams
 - Embroidered Wunderlich logo
 - Made in Germany.

Techn. Information

- Cover material with **ThermoPro** coating
- Sweat-reducing, grippy cover material, combined with pin-tucks in Alcantara, dropped "Cut" seams
- Taped and welded seams for 100% tightness on modern PFAFF hot air welding machines
 - Material of seat shell: High-strength "RoburC" shell of our own construction

- Progressive, dual-layer seat core structure
 - Standard seat height
- -20 mm seat height for the R 1250 GS Adventure and R 1200 GS LC Adventure
