R 1200 ST

R nineT (2014 -)

This absolutely lightweight carbon guard protects the rear drive securely and provides a dynamic finish for the drive unit.

Extremely light and sturdy carbon fibre hybrid material, completely covered with a glossy protective hard plastic coat, which penetrates the material and provides optimal protection. Easy to fit (self-adhesive).

*Advice:

Does only fit with R 1200 GS exclusive of the original splash guard.

SKU: 26600-001
