30990-101. Anyone who does not like sitting bent over will find here the ergonomic symbiosis of the perfect touring posture with a relaxing long-distance travel sitting position. Small change – astonishing effect: In this way even longer tours will be a pleasure. The facts: 25 mm height increase improved handling More immediate feel for the ride Relaxed upright sitting position More mobility Individually machined of solid Dural aluminium (not cast) Anodised silver Quick and easy conversion – no further changes required Complete with set of bolts ABE approved For the R models a raised handlebar is a particularly sensible investment, as the options for handlebar angle increase at the same time which in turn has a positive effect on rider posture. The bars are raised by 25 mm and brought slightly towards the rider. This riser has allowed every R rider who has tried it to find a completely personal setting. ABE approved.
