Anyone who does not like sitting bent over will find here the ergonomic symbiosis of the perfect touring posture with a relaxing long-distance travel sitting position. Small change - astonishing effect: In this way even longer tours will be a pleasure.

The facts:

25 mm height increase
improved handling
More immediate feel for the ride
Relaxed upright sitting position
More mobility
Individually machined of solid Dural aluminium (not cast)
Anodised silver
Quick and easy conversion - no further changes required
Complete with set of bolts
ABE approved

For the R models a raised handlebar is a particularly sensible investment, as the options for handlebar angle increase at the same time which in turn has a positive effect on rider posture. The bars are raised by 25 mm and brought slightly towards the rider. This riser has allowed every R rider who has tried it to find a completely personal setting. ABE approved
