

HANDLEBAR RISER FOR MODELS WITH BMW NAVIGATION SYSTEM R 1250 RS (2019-2022)

156,20€

31000-211. For the R 1200 R LC/ RS LC a raised handlebar is a particularly sensible investment, as the options for handlebar angle increase at the same time which in turn has a positive effect on rider posture. The bars are raised by 25 mm and brought slightly towards the rider. This riser has allowed every R 1200 R LC/ RS LC rider who has tried it to find a completely personal setting.

The facts: 25 mm height increase
improved handling

More immediate feel for the ride

Relaxed upright sitting position

More mobility

Individually machined of solid Dural aluminium (not cast)

Anodised silver

Quick and easy conversion - no further changes required

Complete with set of bolts

ABE approved The clutch hose must be free of tension and bled before the handlebar riser is installed. For this reason the installation must be carried out by specialist personnel or a specialist workshop!
