

HANDLEBAR RISERS – 25MM – SILVER R 1200 R (2011 – 2014) T

93,70€

R 1200 R (2011 – 2014) t

The factory spec R is delivered with a sporty, forward leaning seating position. With this bar riser set, the handlebars are raised 25 mm and because of the angle of the triple clamp, the bars are brought slightly closer to the rider. The finish of these high quality risers closely matches the original bar clamps and makes this modification hardly noticeable to the eye. The kit comes complete with top grade hardware and the installation is simple.

The facts:

25 mm height increase.

Improved handling.

More relaxed upright sitting position.

Individually machined of solid Dural aluminum (not cast).

Anodized silver.

Easy to install. No changes to hydraulic lines or cables needed.

Complete with set of bolts.

Made in Germany.

TÜV approved

Fits 2011 and later models only. for up to 2010 models, please order part number 8160438
