IRON BALTIC HYDRAULIYKSIKKÖ

Tuotenumero: 71.0000

Valmistaja: Iron Baltic

Electrically powered hydraulic unit, with universal and compact design fits most ATV-s and UTV-s for their implements to lift, tilt, turn or adjust working position via hydraulic cylinders. Required 12V DC power obtained from the ATV / UTV battery. Easy to fit and remove. Hydraulic unit has 2 pairs of connection couplings that allow movement with 2 different hydraulic cylinders (e.g for plow lifting + plow turning). Hydraulics can be controlled by wireless remote switch. Kit consist of hydraulic unit (fitted into aluminium alloy casing), power cables, weather resistant wireless remote switch (also possible to fit to handlebar), tie down straps and detailed installation and user manual.

Sopii mm.

Universal Universal

Tekniset tiedot:

- Pump capability 2,8 l/min (0,45cm³/rev, 120bar)
 - Nominal pressure 120 bar (max 160 bar)
 - Motor 500W / 12V DC
 - Oil tank capacity 1 L
- Quick release 1/4" couplings for up to 2 hydraulic cylinders

- Wireless / remote switch
