R 1200 RT (- 2009)

This design gives expression to the R 1200 RT classical round instruments, ensuring a fundamental improvement in instrument legibility and illumination.

There' s no more glare or unpleasant reflection to spoil the picture, and the lack of reflections means that any existing scratches in the instrument glass fade into invisibility.

Made of solid black ABS plastic with a rigid plastic coating that effectively protects the instruments from scratches etc.

Also available in titanium-silver-metallic.

This magnet for the onlooker highlights the elegant enhancement of the bike
