

INSTRUMENT HOLDER FOR ORIGINAL NAVIGATION SYSTEMS

41,60€

21170-202. An alternative solution for the original navigation holder, for an external instrument, telephone etc.

The facts: Can be fitted with one touch, just like the original navigation.

Version upgrade: With the broadened holes now also available with the Garmin Zumo 3xx series!

Strong and secure metal holder for mounting external instruments (TomTom Rider, Garmin Zumo) or a navigation bag (for example our MediaBags EVO).

Sealing pad for original contacts.

Black, plastic coated aluminium. All vehicles with bracket for original „BMW Motorrad Navigator V“

SKU: 21170-202
