

KELLERMANN BAR END TURN SIGNAL BL 2000

250,40€

36341-102. The replacement for the clunky, ugly placed, original front turn signals. Smaller than many a bar end weight, but with a very eye-catching, bright flashing light. This is achieved by the use of the latest development stage of Kellermann High Power LED technology.

The facts:

Tinted annular glass - spectacular bright.

Shapely handlebar degree with flashing function.

indicator disappears visually when not in use.

Kellermann High Power LED technology.

High quality metal housing.

Made in Germany.

ECE-approved as a substitute for front turn signals.

Complete with adapters for mounting on the original or Magura handlebars.

So unobtrusive indicators of the bike is also in use, he shows his true size and surprised by its striking bright flashing light.
