F 800 GS (08/2012 -) t

The safest, probably lightest and easy to maintain crash bar, now also available in a red version.

The facts:

Maintenance operations can be done without removing the crash bar.

Strong network of mounting points with a central mount between the left bar and the right bar.

Equal distribution of forces over 6 mounting points.

Protection of both Lambda sensors.

No interference with ground and cornering clearance.

The crash bar is progressing exactly over the manifold (front view).

The crash bar construction is higher over the cylinder.

Plug-n-Play fitting/mounting.

Low weight.

Plastic coated stainless steel tube .

Detailed and easy to understand instructions.

Made in Germany.

60 days right of return.

Off-road riding is now more enhanced with the crash bar. You can ride on deep wheel marks or extended curves without danger.
