

LED ADDITIONAL HEADLIGHT FOR DUO-LEVER ASSEMBLY K 1600 GT - BLACK (-2016)

457,50€

35570-202. Our LED auxiliary headlights are extremely bright with low energy usage and are a significant plus for active and passive safety. They increase the silhouette of your vehicle and provide a much wider field of view at night.

The facts:

100% uniform illumination

Pure white light

Very long service life (approx. 100,000 hours = approx. 4,000 days of continuous light)

Sharp demarcation below and above = no blinding other traffic

Excellent spotlighting during fog, rain, etc. (not diffuse light)

No glare from your own lights

Very good additional lighting for main headlight

Extremely sturdy - waterproof in accordance with IP67

Ballast integrated (no additional installation required)

E-approval as a fog headlight (does not need to be entered)

Specially designed bracket set for each vehicle for perfect vehicle integration and low installation effort (no changes to vehicle necessary)

Complete with headlamp kit (right & left), lightweight bracket set and electrical fitting kit

Made in Germany
