

## METZELER 170/60ZR17 M/C 72W ROADTEC 01 SE TAKARENGAS TL RE

**271,00€**

170/60-17 (72W) takarengas TL

- Moving sideways, the shoulders of the ROADTEC™ 01 SE feature a land/sea ratio that swings from 90% to a slick rubber starting from 25 degrees of lean angle on, evolving the 84%-to-94% swing of the grand-tourer ROADTEC™ 01. Thanks to this feature, ROADTEC™ 01 SE puts more rubber to the road at large lean angles, ensuring enhanced cornering thrust and directionality
- The tread pattern design of ROADTEC™ 01 SE features a higher land/sea ratio on tire's shoulders both on the front and the rear, which grants enhanced sportiveness and a muscular presence dedicated to the sporty share of sport tourers
- As a matter of fact, the center section of ROADTEC™ 01 SE matches the land/sea ratio of ROADTEC™ 01 reaching the value of 82% in order to benefit from advanced water drainage technologies developed for the ROADTEC™ 01
- ROADTEC™ 01 SE is Metzeler evolution in the Sport Touring segment that enhances handling and grip for supersport and naked motorcycles preserving mileage and performance in wet conditions
  - Transversal grooves
  - Ensuring mechanical grip
  - Drain the water when raining
  - Fine interaction with ABS
- Larger land/sea ratio on shoulders

- More rubber to the road at full lean
  - Increased line-holding
- Enhanced cornering thrust and edge grip
  - New slick shoulder
- Increased grip until the limit lean angle
- Improved safety feeling when cornering
  - Saber-shaped grooves
  - Enhanced mechanical grip
  - Efficient water drainage
  - Drop-shaped grooves
- Increase traction on low-friction surfaces
- Improve stability and motorcycle control in braking
  - Accelerate compound warm-up
