

MOUNTING KIT AUXILIARY LAMPS FOR WUNDERLICH TANK PROTECTION BAR

83,30€

28363-102. When mounting our Wunderlich tank protection bars, we must use the two original mounting points of BMW's auxiliary lamps, the result is that the points are no more available. This kit replaces the original holding bracket. Thereby the fastening points are „doubled“ and the original additional lamps can be mounted again at the same place.
