

NAVIGATION DEVICE BRACKET R1200RT (- 2009)

124,90€

##R 1200 RT (- 2009)

The Facts:

Device is always in the field of view of rider.

Easier and safer navigation.

Easier access and operation of device.

Adjustable inclination angle.

Easy to fit, no drilling etc. required.

Lightweight anodised aluminium.

Versatile: Can be used with TomTom Rider I + II * + IV, BMW Navigator, all devices using a “claw” adapter, Garmin ZUMO or any PDA (in combination with our Mediabag), photo cameras, cam corders...

Sold with complete fitting kit for easy installation.

Made in Germany.

It may not look so from the outside, but we put a lot of work into this part to make the installation easy to do,

without having to drill or cut any part of the motorcycle
