

OPTIMATE MOTORCYCLE SOCKET

35,80€

45010-600. Optimate cables and accessories are cable systems and solutions that are specially developed to your needs on a motorbike. The Optimate cable system is a brilliant push-fit system that allows you to feed power to almost any consumer. Whether in the tank bag, for connecting USB consumers or even for battery monitoring. The plugs, sockets and couplings are also compact, water-tight and highly resilient.

Optimate motorcycle socket - The most compact DIN socket.

The facts:

Very small size

Angled socket for a flat cable outlet

Cable length 15 cm with coupling to the Optimate cable system

Ordering information: The system has multiple parts in most instances. For example, in order to be able to connect the cigarette connection socket (item no.: 45010-500) to the DIN socket, you'll also need the matching DIN lead (item no.: 45010-600). But then what's great is the free combination of all leads/adapters.
