

OPTIMATE TANK BACKPACK POWER SUPPLY

33,40€

45010-700. Optimate cables and accessories are cable systems and solutions that are specially developed to your needs on a motorbike. The Optimate cable system is a brilliant push-fit system that allows you to feed power to almost any consumer. Whether in the tank bag, for connecting USB consumers or even for battery monitoring. The plugs, sockets and couplings are also compact, water-tight and highly resilient.

Optimate tank backpack power supply, ideal for waterproof cabling of tank backpacks, bags, or hard cases.

The facts:

Easy installation on all Wunderlich tank backpacks and bags with e-connect (water-resistant cable access)

Also optimal for suitcases or top cases

Angled external connection, thus lies close to the bag

Special rubber seal with M14 screw connection

Divided cable set with mini round plug and coupling to the Optimate cable system

Cable length 30 cm with coupling to the Optimate cable system

Ordering information: The system has multiple parts in most instances. For example, in order to be able to connect the cigarette connection socket (item no.: 45010-500) to the DIN socket, you'll also need the matching DIN lead (item no.: 45010-600). But then what's great is the free combination of all leads/adapters.
