OXFORD AQUA C7 RUNKOLAUKKU

Oxford Aqua Bags offer the easiest way to get your gear from A to B, safe and dry. They are made from tough PVC tarpaulin, which is welded to form waterproof seams. The C7 Crash Bar Bag is the latest addition to our extensive Aqua luggage range and is designed for use on adventure bikes that have engine crash bars. The bag has a wipe-clean, matt black exterior which complements bikes of any colour and they look great when used as a pair. With a 7-litre capacity, each bag is ideal for carrying essential items for day trips and there a convenient carry handle for when off the motorcycle. Their roll-top design makes packing easy thanks to the bag wide opening and when rolled up the compression straps ensure no water can enter. D-rings allow the bag to be securely attached to the motorcycle, or you can strap the bag to your existing luggage using the additional straps included, expanding your carrying capacity.

Key Features

- 100% waterproof
- 7 litre capacity
- Tough PVC tarpaulin construction
- Welded seams ensure your belongings stay dry
- Waterproof roll top closure with compression straps for maximum stability
- Ergonomic handle for convenient carrying when off the motorcycle
- Rigid rear panel prevents deformation
- D-rings allow the bag to be securely attached to the motorcycle

- Bag can be secured to existing luggage using straps included
 - Universal fit for almost all motorcycles
- Dimensions when bag is closed: 220mm (W) x 300mm (H) x 140mm (D)

IMPORTANT: Follow the user guidelines. Regularly check that your luggage is securely attached, does not contact any moving or hot parts and does not obscure motorcycle reflectors or lights.
