

PROXXON SOCKET SET 1/4 " 36-PART

53,80€

41880-100. The facts:

Socket set of 4 - 13 mm.

Screwdriver insert with square drive for slotted screws, Philipps screws, TX screws (with on-the-face bore) and socket head screws.

Allen wrench (angled) Gr. 1.25 - 1.5 - 2.0 - 2.5 and 3.0 mm.

For other contents see illustration. The most important part: The ratchet:

Forged from one piece of CrV steel.

Hardened and with perfect interlinking: more than 52 teeth snap at the same time and transfer a high torque moment.

With a release mechanism: Release the insertion tool at the touch of a button. In a stable steel box (powder-coated) with high-quality form insert made of polypropylene. Oil and acid resistant and easy to clean. With lastingly legible marking for all spanner widths!
