S 1000 RR (- 2011) t
S 1000 RR (2012 - 2014) t
S 1000 RR (2015 -) t
S 1000 XR

A professional, convenient and well-designed jacking device for the S 1000 RR - ideal for those occasions when the bike needs to be held perfectly still during maintenance work, etc.

The facts:

Holds the bike securely, laterally as well as to the front and rear.
Robust, lightweight stand with durable coating.
Four low-friction wheels for easy movement and jacking.
Double, closed ball-race mounted hub mandrel.
Simple and safe positioning.
Long lever can be operated with the foot.
Adjustable holding fixtures.
Suitable for one-person use.
Compact and very robust design.

Note:

you will need additional brackets (such as the genuine BMW)
