

RALLY 0.1 KW BULB H7

15,52€

23850-000. All bulb approved by the Germany Road Traffic Act (StVO) are torch lights compared to this appearance! It's like turning nights into day with this one. These bulbs are very popular among long-term tourer, and for sure not for nothing – they give 100 Watt which is hard to replace! Still, we have a hint: We use this bulb (except during sports events) preferably as high beam, so no one gets dazzled. That's why we added this H4 bulb in its rare but powerful combination.
