

REAR FRAME "CLASSIC" COATED

520,00€

44370-202. Anyone wanting to radically "beautify" their BMW shouldn't miss out on this light tail piece. Made from 17 mm steel pipe with a thickness of 3 mm, with classically styled reinforcements in the neuralgic bending area between the lower frame strut and the seat cover and with that special curve in the tail that's never been seen on a twin valve before. With recesses for an aluminium, steel or GFK mudguard of your choice.

Since the large majority of our customers mount the frame in black, we've decided to supply this frame in black as of now at no extra cost.

The facts:

Only weighs 2.3 kilos

Custom construction for original attachment points

Can be combined with the "Classic seat"

Black coated

5 year warranty

Made in Germany Goes especially well with the "Classic seat" that screws to the rear frame from beneath and the R-Classic mudguard.

With TÜV part certificates.

SKU: 44370-202
