PULLBACK	30°

Angled Handlebar Riser

- Precision angle moves handlebars straight up from center of steering post
- Offers increased comfort and feel for aggressive mountain and trail riding
 - Fits flat style steering posts only
- Included custom inserts allow risers to work on stock 7/8" handlebars and oversize 1 1/8" handlebars
 - Constructed of 6061-T6 aluminum
- Universal design fits multiple applications; simple bolt-on style installs in minutes
 - Most snowmobiles will allow 2" or 3" rise without extending cables or wiring

All Polaris thru 2008, Ski-Doo Rev and ZX Chassis, All Arctic Cat (except M-series, Pro Cross and Pro Climb Chassis), Yamaha Mountain Max, SX, SRX, Viper
