

SIDE FAIRING LEFT

572,10€

36150-201. Probably the most radical weight optimisation of its kind around (up to 2800 g lighter), as well as being an impressive upgrade. Useful changes have also been introduced, which improve the aerodynamics, offer further weight reduction and create a sportier design. Extremely lightweight and sturdy carbon-fibre hybrid material, coated with a polished hard plastic layer that penetrates into the material and ensures optimum protection. A simple replacement for the original. Supplied with a General Operating Licence (ABE). Weight approx. 340g
