Additional insurance for the GS: fully loaded or on loose ground, a GS supported on the side stand can easily get bogged down. A precisely machined extension plate that can quickly be bolted to the side stand eliminates this risk.

### The facts:

Safe support for the machine on all surfaces.  
Compensates for the leaning angle of the motorcycle.  
Surface area increased by more than 100%.  
8 mm (0.31")- thick Dural aluminium.  
Rustproof anodised black.  
Rust protection for the original stand plate.  
Cut-out for original foot lined with vibration-absorbing foam rubber.  
CNC machined.  
Easy to fit.

Not suitable for vehicles with lower suspension!
