

SIDE STAND ENLARGER R850/1100GS/1150GS (1998-)

52,00€

##R 1100 GS

##R 1150 GS

##R 850 GS

Additional insurance for the GS: fully loaded or on loose ground, a GS supported on the side stand can easily get bogged down.

A precisely machined extension plate that can quickly be bolted to the side stand eliminates this risk.

The facts:

Safe support for the machine on all surfaces.

Compensates for the leaning angle of the motorcycle.

Surface area increased by more than 100%.

8 mm (0.31")- thick Dural aluminium.

Rustproof anodised black.

Rust protection for the original stand plate.

Cut-out for original foot lined with vibration-absorbing foam rubber.

CNC machined.

Easy to fit.

Made in Germany.

Tip: Before fitting the enlarger, paint the underside of your original side stand with black paint to prevent further rusting of the blank and scuffed metal.
