"SWING" TAIL SECTION WITH "DEVILS EYE" REAR LIGHT CONVERSION

457,50€

44111-212. Discreet, light licence plate holder incorporates excellently into the roadster's sporty line and leaves the view of the rear wheel free. The cable bushing is invisible in the pipework, the LED licence plate light can be attached from above or from the sides. Number plate is height and tilt adjustable. Stable powder-coated stainless steel pipe construction. Can be combined with lugged tyres and 180s as well as 190s tyres.
Delivery: Base holder below seat with three available indicator positions (adjustable to the vehicle axis and in width), number plate holder, LED number plate light, reflector/support and complete installation kit.

With " Conversion with DEVILS EYE LED tail light": The smallest approved tail/brake light. Turned and milled aluminium housing. Black anodised.

For original 2 man seat + original hump.
