S 1000 RR (2015 -)

The tank bag is focused and customised to the design of the S 1000 RR and provides maximum freedom of movement, while demonstrating optimum design integration and perfect utilisation of space.

The facts:

Compact for complete freedom of movement.

Form-fitted to prevent from slipping, etc.

Tank bag suitable for S 1000 RR

Tank bag with 10 litres capacity.

E-CONNECT: Dually protected cable grommet for audio and/or charger cables. This way, devices in the tank bag are optimally protected and can also be charged at the same time.

Adjustable elastic net compartment on the upper part of the tank bag for gloves, etc.

Dust-proof and water-proof YKK fasteners with handy grips

Discreet, safe brackets without large metal mountings (as with the original tank bag), etc.

Inner lining (water-resistant) ensures a good overview so that nothing can get lost in the corners of the bag.

With internal reinforcement. Reinforcing inserts provide optimum stability of form and prevent from bulging.

Quick removal/fitting thanks to TENAX quick-release fasteners on the tank.

Water-proof and dirt-resistant special fabric. Strong, tough and does not bleach. Coated on inside.

Smooth, slip-proof base plate. Protects tank from scuff marks (sticks like cling-film).

Ergonomic carrying handle

Low weight.
