

TANK SIDE PANELS

624,20€

43785-000. Quality awareness is not often compatible with plastic. Extremely light, stable and high-quality side covers made of pure Carbon. The Rally of Agadir was the test of stamina: Despite the much lower weight, the lower wall thicknesses and some falls, they were hard to beat in stability. A new, harmonic design makes the new GS more exclusive and lighter. High-strength carbon fibre material coated with a shiny hard plastic layer (which underlines the three-dimensional structure). Complete unit, inclusive a new set of emblems. With ABE approval (For models from 2010 in preparation).
