

UNIVERSAL FOIL 20 X 30 CM (NO APPLICATOR/FLUID INCLUDED)

15,50€

28240-000. A single foil 20 x 30 cm (~7.8 x 11.8") , to be cut and/ or used wherever else needed. Does not include spatula and fluid. Invisible protective film to protect your paintwork from those annoying scratches and scuffs that reduce the value of your bike. Reduces the energy of stone impacts to a minimum. Also available for headlight protection. (included in complete set). Completely UV resistant, no discolouration of the transparent films. UV permeable(!) meaning that the protected parts of the paintwork will, as usual, change colour over the years. This outstanding feature of the material means that no differences in colour between protected and unprotected paintwork will emerge should you ever want to remove the film. Almost invisible. Contour-hugging fit, that blends perfectly into the overall form. Extremely adhesive. Yet easy to remove Quick payback (in terms of maintained value) You can continue to clean your bike as before without any restrictions.
