

WERA TOOL-CHECK PLUS, 39-PART.

167,60€

41882-000. 38-part tool combination consisting of ratchet, bit, bits and a hand-held holder in the smallest space.

Perfect as a universal companion with a range of screw applications.

The facts:

High-quality hand-held bit holder power form plus grip for pleasant ergonomic working while avoiding blisters and calluses.

Hard grip zones for high work speed, soft grip zones for high torque transition.

Bit ratchet for quick work when screwing by machine or standard hand tools isn't possible due to space issues.

Quick switch from left to right turn operation and back again via the switch lever. Quick screwing (with thumb)

thanks to the knurling on the ratchet head.

Simplest operation even with just one hand.

Ergonomic ratchet head/lever.

Power form geometry with perfectly shaped contact surfaces for the fingers.

Direct bit hold in the ratchet head ensures smallest tool structure for low working heights.

small returning angle of 6° for precise work.

Robust die-forged real steel design.

Torque of over 65 Nm.

The Rapidaptor bit holder with quick screw sleeve: Can be used as an extension, for lightning fast bit changes without the aid of tools for even the smallest bit sizes with just one hand.

Tough hard bits (steel grey) are especially suitable for hard materials such as sheeting or metal.

Hard bits (golden yellow) are especially suitable for soft materials such as wood.

Hand and machine nuts for practically all applications.
