

This image displays a variety of 2D technical drawings of mechanical components. At the top left is a green rectangular gasket with three large central openings and a row of small holes along its perimeter. Below it are three black rectangular flanges with rounded corners and four mounting holes each. To the right of these is a large, vertically oriented oval flange with two concentric oval openings. Further down are three black square flanges with circular openings and four mounting holes, followed by two black circular flanges with four mounting holes. Below these are three black oval flanges with two mounting holes each. To the right of the oval flanges are three small circles and one larger circle. At the bottom are four circular flanges with a central hole, each with a different outer diameter. On the far right is a large circular flange with a central hole and a smaller concentric circle inside.
