

WINDSCREEN SPORT R 1200 R SMOKE GREY

155,70€

43956-002. "Naked Screen" R windshield

This windscreen is the perfect symbiosis of windshield and screen. Not as thick and bulky as a large windscreen, but big enough to give significant relief to the upper body. The windshield only protrudes 130 mm over the instruments of the "R", so the roadster completely retains its sporty look. The transition from the headlight to the windshield is visually well designed.

The facts:

- Simple assembly
- Comfortable, turbulence-free airflow
- Significant upper body relief
- Roadster design is maintained
- Scratch and shatter-proof acrylic plastic
- Complete set with all attachment hardware
- Smoke grey
- With ABER 1200 R (height: 350 mm)
