799,00€

R 1250 RT

R 1200 RT LC (2014 -)

Function

- Unbeaten, optimum seat comfort thanks to innovative gel insert
 - A relaxed and active riding experience adds a definite plus to passive safety
- Ergonomic 3D contour to support the natural posture of the back and comfortable leg position while riding and standing
- The sitting pressure is equally distributed over a larger area, resulting in noticeably optimised weight distribution and lower specific pressure load
 - Ergonomic shape of the special foam to relieve the coccyx
 - Seat heating insert for optimum heat distribution
- More comfort with **ThermoPro**: With our **ThermoPro** , the temperature of the seat surface is up to 25°C lower in full sun in high summer compared to conventional cover material.
 - Refined, dropped "Cut" seams
 - Embroidered Wunderlich logo
 - Made in Germany.

Techn. Information

- Cover material with **ThermoPro**
- Sweat-reducing, grippy cover material, combined with pin-tucks in Alcantara, dropped "Cut" seams
- Special, ergonomic seat bench core

- Taped and welded seams for 100% tightness on modern PFAFF hot air welding machines
 - Standard seat height
