

WUNDERLICH CRASH PROTECTORS FRONT WHEEL »DOUBLESHOCK«

83,30€

42149-002. Keeps the forks a safe distance from the asphalt and helps prevent serious damage.

The Facts:

Effective protection for the forks.

Ideal supplement to engine protection bars/crash pads because the motorcycle has extra support during the "slide phase".

Built in shock absorption and slide protection.

Race proven design with low friction resistance / shearing force in slow speed falls or extreme lean angles and a progressively increasing friction during extended road contact.

Special resilient plastic.

Quick and easy to install.

Made in Germany.
