

WUNDERLICH "DAYTONA" COCKPIT FAIRING

520,00€

30471-414. Following the style of the legendary R90 S, this modern classic was developed to transform the R nine T into a pure sports roadster. The fairing not only looks great, it also effectively redirects air flow and increases rider comfort.

The fairing is made of lightweight but strong ABS plastic material. The unpainted basic "Silver" version plastic is coated with a high gloss layer that gives the panel a paint-like quality. It can be mounted without further treatment, or you can get it painted by your local paint shop. The black version has been painted using original BMW paint to match the stock Blackstorm Metallic color.

The Facts:

The R nine T takes on the appearance of a Retro Classic á la R 90 S with minimal installation effort.

Effective reduction in wind pressure.

Supplied complete with brackets and all parts needed for installation.

Can be used with the original turn signal indicators.

TÜV approved.

Easy to fit. Pictures show variation in the color black.

The item includes the head lamp fairing + mounting kit only, the windscreen must be ordered separately.
