

WUNDERLICH "DOUBLESOCK" AXLE CRASH PADS

83,30€

42156-102. Now also keep the forks a safe distance from the asphalt and help prevent serious damage in the long term.

The facts:

Effective fork protection

Ideal combination with engine protection bars / crash pads, because the motorcycle now has extra support with the axle pads during the "slide phase"

Double protection against impact (incorporated damping layer) and abrasive damage
Racing-proven design for low friction resistance / shearing forces in the event of minor falls or extreme lean angles, and progressively increasing frictional resistance during extended road contact

Heavy-duty special plastic

Safe and easy-to-attach mount

Quick and easy to install

Complete with fitting kit

Made in Germany

SKU: 42156-102
